

Guide to install and use Energizer website as an offline PWA app.

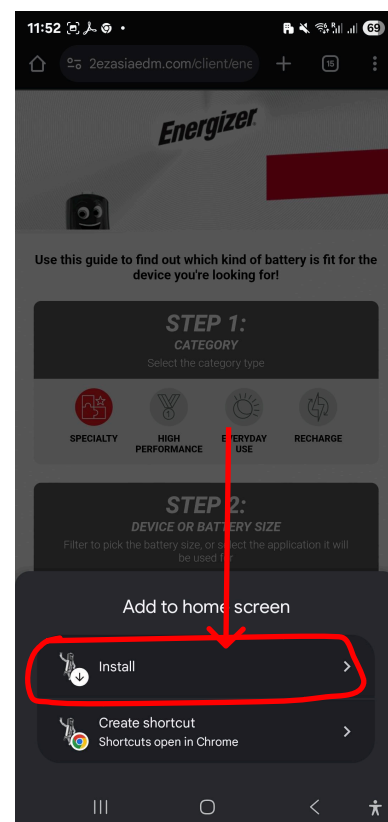

1. Select the more option on top of the browser, in Google chrome, it is the three dots at the top right.

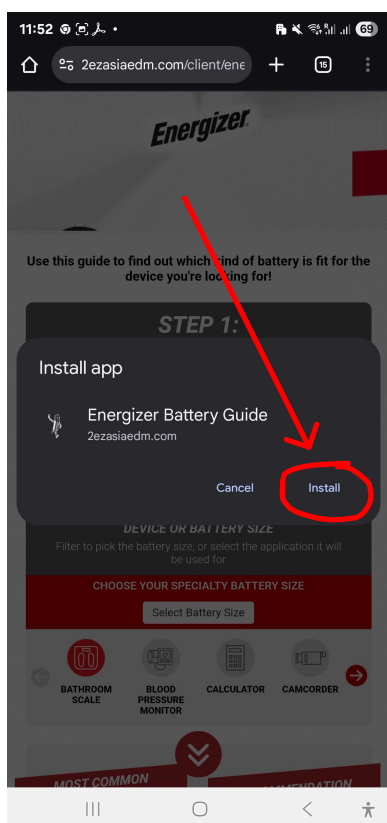

2. Click on the "Add to home screen" option

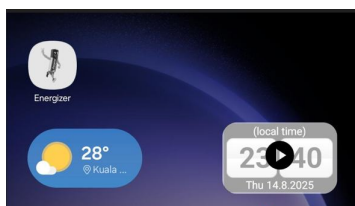

3. Select the "Install option" when prompted

4. Proceed to install the app

5. The PWA app should now show up on the device's home screen looking like an actual app

6. A good indication of whether it's working is to notice that the url search bar at the top has disappeared, after all the steps above then you may turn off your wifi
